[Despatch Abstract.]

Sugar Industry – Improvement of milling efficiency – Recommendation of the India Tariff Board

GOVERNMENT OF MADRAS
Development Department
***
Letter No. (MS) 4631
***

From

Sri P.S.Viswanatha Ayyar I.C.S.,
Secretary to Government.

To

The Secretary to the Government of India,
Ministry of Agriculture, Jamnagar House,
NEW DELHI.

Dated, Fort St. George, 13th November 1950.

Sir,

Sub: Sugar Industry-Improvement of milling efficiency-Recommendation of the Indian Tariff Board

Ref: Sri N.T.Mons's letter No.SV-101 (4-5)/50 I-5298 dated 6-5-50.

I am directed to say that the Government of Madras have examined the recommendation of the Indian Tariff Board in consultation with the D.A., the D.I.&.C. and the S.I. Sugar Mills Association, Madras. It is considered that the milling efficiency in the sugar factories can be improved by adopting the following suggestions:-

i. Mere efficient and balanced factory units must replace unbalanced and uneconomic factories;

ii. Old and out of date machinery should be replaced by modern ones; and

iii. The fibre in the cane must be less, if the mill extraction is to be improved.

The sugar mills in this state are already aware of the need to improve milling efficiency and they are taking steps to achieve this end. The D.A. Madras has been instructed to take all possible steps to implement suggestion (iii) above. ThisGovernment consider that no other action need be taken on the recommendations of the Tariff Board so far as this State is concerned.

Yours Faithfully,

P.S.Viswanatha Ayyar
Secretary to Government.
